Instructions for Spreadsheet:								
If you selected Excel format, select <i>File</i> , then select <i>Save As and save the document to your hard drive. Open in Excel to edit the document.</i>								
Highlight rows needed. To highlight, select the number to the left of the row. Then select the bucket icon that is preset to yellow.								
Once the above is complete, the row will be highlighted like these rows.								
Instructions for Selection using Adobe file:								
Print the Adobe document. Place a check mark in the Load column.
